🖥 My Site   👤 LinkedIn   <> GitHub

Hi, My name is Szymon Kaszuba-Gałka, but you can call me Szymon or Simon :) I am a Software Developer and have always had something to do with computers. My father was a mechatronics engineer so I guess I caught the bug from him. My target is to become as good of a software developer as it is possible - I hope I can fulfill that dream with you!

👤 Soft Skills

Team Player & Lone Wolf

I am a really good team player but I can also carry out solo tasks

Good Communicator

I don't hasitate when presenting new features to stakeholders and I am able to present problems/issues/ideas, even complex ones, with high efficency, accuracy and preciseness

Open For New Challanges

I love taking on new challanges - the more complex the problem, the more I am happy when I solve it

System Flexibility

I can work on any OS, any system. On my machines I use Widnows, MacOS and Linux
